GERBERA 
Gerbera jamesonii

Mega Revolution™ Series F1

Height: 6 to 10 in./15 to 25 cm
Spread: 12 to 14 in./30 to 36 cm
Flower size: 4 to 5 in./10 to 13 cm

Seed supplied as: Coated

Plug crop time: 6 to 7 weeks

Transplant to finish: 8 to 10 weeks

- Produces manageable, larger-sized plants with very large flowers - beats competing series for colour range, bloom size and seed quality.
- Ideal for larger container programs.
- Supplied with industry-leading seed quality.

Bright Orange with Light Eye

One of the fastest varieties in the series and one with the largest flowers.

Bright Red Contains a mix of dark and light eyes.

Bright Rose with Dark Eye
Smaller flowers and slightly taller compared to the series average.

Deep Rose with Light Eye
Superior dark colour is great for mixes and combo pots. Colour holds very well under high light levels.

Salmon Rose with Light Eye
High percentage of double-petalled blooms.

White with Light Eye
Cleaner white colour than the competition.

Yellow with Dark Eye
Best dark-eyed yellow gerbera on the market.

Select Mixture A selection of the best colours in the series.

Hit your schedule every time

Flower timing is synchronized across the colour range in each Revolution series, so your product flows smoothly. No surprises...you grow, pick, pack and ship just as you planned. High uniformity enables a consistent, fully programmable, high-density crop year-round.

GERBERA continued

Revolution™ Series F1

Height: 4 to 8 in./10 to 20 cm
Spread: 10 to 12 in./25 to 30 cm
Flower size: 3 to 4 in./8 to 10 cm

Seed supplied as: Coated

Plug crop time: 6 to 7 weeks
Transplant to finish: 8 to 10 weeks

- When it comes to uniformity of flowering window across a complete colour range, Revolution is the leading standard-size pot gerbera.
- Industry-leading seed quality.
- Better second flush of flowers than the competition assures much longer bloom time for the consumer.
- Best for 5-in./13-cm pots.

Bicolor Red Lemon A unique bicolor in gerberas.

Deep Orange with Dark Eye More compact variety has a good, deep orange colour.

New Orange with Light Eye Improved Features a stronger, deep orange colour that doesn't fade under high light conditions; better flower quality, with more and wider petals; more compact flower stems with improved, uniform length, and a higher quantity of usable plants.

Red with Light Eye Puts multiple blooms up at one time and has the shortest cropping window of any gerbera.

Salmon Shades with Light Eye Features short stems, making it a good mix component, with shades from deep salmon to pink.

Bicolor Mixture Available in North America only. Includes all four bicolor varieties.

Select Mixture Uniform mix of bold, bright colours.

ColorBloom™ Series F1

Height: 4 to 6 in./10 to 15 cm
Spread: 6 to 8 in./15 to 20 cm
Flower size: 3 to 4 in./8 to 10 cm

Seed supplied as: Coated

Plug crop time: 6 to 7 weeks
Transplant to finish: 6 to 10 weeks

- The ColorBloom series is specially designed for the quart/11-cm retail market.
- ColorBloom is the most uniform series on the market, with the best performance for consumers.
- The series is around 10 days faster to flower than competitors.
- More uniform with a shorter flower window.
- It has a higher amount of usable plants due to better seed quality.
- Offers a compact plant habit that requires less to no PGRs.
- Series holds its colour better and won't fade in high light.

Bicolor Orange Yellow

Around one week later to flower compared to other varieties in the series.

New Bicolor Red White A unique bicolor for this quart/11-cm pot market segment! Fits the series for controlled plant habit and consumer performance; 5 days later to flower like Bicolor Orange Yellow and NEW Deep Orange with Dark Eye.

Cherry with Light Eye

Can show more red under higher light conditions.

New Deep Orange with Dark Eye

Features a good orange colour that doesn't fade under higher light conditions. Fits the series very well for plant habit and consumer performance; 5 days later to flower like NEW Bicolor Red White and Bicolor Orange Yellow. Adding this top-selling colour means we can now offer growers a complete gerbera program!

Red with Dark Eye

More uniform in colour and around one week earlier to flower than competing reds.

White with Dark Eye

Clear white and uniform in colour.

Yellow with Dark Eye

Slightly smaller flowers than the rest of the series.

Mixture Includes all varieties in the series. Note that Bicolor Orange Yellow is slightly later to flower than the rest of the varieties.

Stays tidy for smaller pots

ColorBloom stays compact, so it won't get too full or leafy, allowing the colourful blooms to show through in quarts/ 11-cm pots. Faster to flower by around 10 days, ColorBloom beats the competition to market. First-time plant buyers will love the exciting, non-fading colours and easy care of this indoor/outdoor plant.
