ALYSSUM ⬤
Lobularia maritima

Clear Crystal® Series

Height: 6 to 10 in./15 to 25 cm
Spread: 12 to 14 in./30 to 36 cm

Seed supplied as:
Coated, Multi-Seed Pellets

Plug crop time: 4 weeks
Transplant to finish: 4 to 6 weeks

• Tetraploid alyssums deliver more vigour than standard diploids for reduced loss and increased profits.
• Few PGRs are needed in most markets – cool-season crop can be grown with little or no heat for Spring pack programs.
• More vigorous with larger flowers than Easter Bonnet.
• Fragrant, large blooms and stronger performance in containers, hanging baskets and in-ground plantings.
• Well-matched series includes the first pigmented tetraploid alyssums.

Easter Bonnet Series
Height: 4 to 10 in./10 to 25 cm
Spread: 10 to 12 in./25 to 30 cm

Seed supplied as: Raw, Coated

Plug crop time: 4 to 5 weeks
Transplant to finish: 5 weeks

• Offering a full colour range, Easter Bonnet combines uniformity of habit and colour with unsurpassed earliness.
• Covered with dainty, fragrant flowers, plants stay compact and tidy much longer than other alyssums, making these excellent edging plants.

Snow Crystals
Height: 6 to 10 in./15 to 25 cm
Spread: 12 to 14 in./30 to 36 cm

Seed supplied as: Raw

Plug crop time: 4 weeks
Transplant to finish: 4 to 6 weeks

• Large, pure white, scented flowers have outstanding sales appeal.
• Tetraploid genetics of Snow Crystals add heat tolerance and vigour.
