## Topspin

Begonia semperflorens

Cool finishing temperatures won't slow this Begonia down!

Great garden performance in sun and shade.

- Can be grown successfully alongside other annual bedding plant crops at temperatures as low as 14 °C (58 °F).
- Save up to 14% on production costs with earlier flowering and faster finish times under any production environment.
- Excels at retail and in the garden with outstanding branching and large, premium flowers.

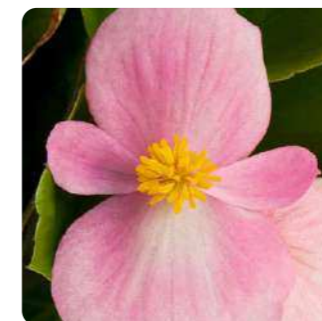

Not available for European Wholesale.

**topspin<sup>o</sup>**  
The right begonia. Always.

#### YOUR BENEFIT

Topspin's innovative cold tolerance lets you **plan and produce more efficiently**, while **reducing waste at the same time**. That's how you save time, money and effort.

**Worry-free production – that's our promise.**

# Bada Bing

Begonia semperflorens

Perfect for main season sales.

Bada Bing (Green leaved) and Bada Boom (Bronze leaved) are both very early, uniform series for use in packs and small pots.

- Garden performance great in sun and shade.
- Strong germination and seedling vigor to optimize production from sow to finish.
- Very early flowering with a narrow bloom window for quick turns and bench-run production.
- Compact, well-branched plants ideally sized for high-density production in packs and small pots.

Strike it big with built-in heat tolerance for mid to late season sales.

A free-flowering beauty in the garden that delivers season long color.

- Very free flowering combined with best field performance of a compact Begonia.
- Very strong branching and tolerant to adverse conditions make this the best choice for landscaping and home garden plantings.
- Exhibits strong plant vigor and branching for fast container fill and outstanding landscape performance.
- Full assortment of well-matched green and dark bronze leaved varieties that hold their foliage color in the heat.

# Volumia

Begonia semperflorens

Volume with class.

Voluminous plants with extra-large flowers that still keep the nice round shape all season long.

- More vigorous than other Begonia semperflorens varieties, offering full plants and noticeably larger flowers.
- Early enough for quick turns, with the necessary vigor to achieve maximum impact in pots and the landscape.
- Ideal for premium retail and bedding applications in small to large pots.

Volumia

# Tophat

Begonia x Hybrida

The biggest blooms and fastest finish put Tophat ahead of the pack.

Tophat is the new vigorous growing Begonia with extra large flowers for landscaping and large containers.

- Up to two weeks earlier flowering with larger flowers.
- The only series that contains white and a beautiful bi-color, next to scarlet and pink.
- Much better branching than competition for faster pot fill.

# Bowler

Begonia x Hybrida

NEW  
COLOR

Contrasting flowers and foliage will bowl you over.

Vigorous, bronze leaf Begonia with large flowers and a unique, branched and mounding habit.

- Ideally suited for landscaping and hanging basket production, yet versatile enough to also work in large packs.
- Chocolate-bronze foliage contrasts beautifully with large, bright white flowers.
- Bit more compact than Tophat.  
Note: may contain up to 3% green leaved plants.

# Braveheart

Begonia x Hybrida

Not your typical Begonia.

An enchanting bicolored hybrid that excels in landscape performance. Unique choice among our Heat Lovers.

- Colour intensifies in cooler weather.
- Grows also at low temperatures.
- Large, showy plants need little maintenance and continue flowering through periods of water stress.
- Flowers early for faster finish in large premium pots, combinations, and baskets.

# Limitless

Begonia tuberhybrida

Shade lover in a wide range of basic and special colors.

Very large, semi to fully double flowers in a very wide range of colors.

- Up to 7 days earlier flowering than competition.
  - Very little to no PGR required for optimal plant habit.
- Not available for European Wholesale.

# Cora XDR

Catharanthus roseus (Vinca)

The vinca that fights back!

Easier to grow: improved branching, uniformity, and flower-power ideal for premium packs and small to larger pots.

- Reduced risk: offers season-long flowering and survival in landscape plantings.<sup>1</sup>
- This vinca is powered by high levels of resistance to multiple strains of aerial Phytophthora.
- Higher consumer appeal: large showy flowers in the widest range of solid and high demand bicolor patterns of any disease resistant vinca on the market.

<sup>1</sup>Highly resistant to ten of the most virulent isolates of Phytophthora nicotianae that cause Phytophthora blight on annual vinca (Confirmed in collaboration with Clemson University; These isolates were found at growers and in landscapes across the southern U.S.)
