

Nastya Nikolaeva, Egor'evskiy, Russia

We have been growing Gazania Kiss for a long time. It fits well in our production program. Plants from this series are easy to grow and perfect for pack production. All colors in the series bloom almost simultaneously, which makes it easy to send them to our large retail chains Auchan, Castorama, OBI.

The retail-ready plants of Gazania Kiss are not only very elegant, they are also resistant to drought and heat, Moreover, they tolerate the first frost well, which is very important for our customers.

Kiss

Gazania rigens

Bring a Kiss of joy to your world.

Multiple large blooms on tightly upright plants work perfectly in a premium quality program.

- Very uniform between all colors, making production more efficient and easy.
- Perfect for larger packs and smaller pots.

Big Kiss

Gazania rigens

Super-sized flowers on vigorous plants.

Huge, striking 12 cm blooms held en masse above attractive foliage make a striking display on the retail bench or in the garden.

- Full, bushy habits easily fill large containers.
- This heat-loving, drought tolerant beauty creates a dependable product to extend the season for premium retail sales.

Frosty Kiss

Gazania rigens

There is nothing cold about this Kiss.

Frosty Kiss is the earliest flowering, most uniform series with silver leaves on the market. Suitable for 9 to 12 cm pots with a nice contrast between flower and leaf color.

- Silver foliage companion to Kiss series, provides additional retail and garden interest even when flowers are closed.
- Earlier and more uniform flowering than other Gazania series with silver leaves for easier and more economical production.

Gazoo

Gazania rigens

If you like it big: Gazoo.

Gazoo distinguishes itself from other Gazanias with very large flowers, 12-14 cm across, strong flower stems and a vigorous plant habit. The flowers open up under lower light conditions, showing exceptionally strong color for a long period.

- A lower cost, open pollinated alternative to hybrid Gazanias.
- Distinctive extra large flowers on vigorous plants are ideal for large, showy pots.
- An assortment of unique, clear color flowers, plus those with traditional rings, make a compelling retail offer.

Vladimir Prazdnikov, Gorky Park, Russia

Sunfinitly is really something special! It looks very different compared to the other annuals, and we like it very much. I would like to notice its flexibility in a greenhouse and outside. But also, the incredible growing and flowering power are truly stunning. This interspecific hybrid has a good uniformity in all stages, which is very important for the agronomists and landscape designers.

We are able to grow the magnificent plants up to 1,5 meters high and one meter wide, without using PGRs. All plants were covered with eye-catching yellow flowers. The flowering period is very long so the Gorky Park and Muzeon visitors can enjoy this vigorous and bright beauty for many weeks.
