

Asti

Osteospermum ecklonis

Bubbles of joy.

Easy growing Osteospermum from seeds available in separate colors. Great alternative for cuttings.

- A uniformly compact and branching Osteospermum, ideal for high-density growing in small pots.
- Offers easy, no-pinch production with all the efficiencies of mechanical handling of seed grown plants.
- Asti White was awarded with the All-American Selection Award!

85%	Raw	11-13 cm	Yes	12-14 weeks	March-May	25-40 cm	Upright	Sun

Tornado

Pelargonium peltatum 

A basket sensation.

Easy to produce Trailing Geranium. Super branching plants require no pinch and little to no PGRs to make beautiful baskets and balcony planters.

- Perfect for basket programs, a naturally trailing and free-flowering alternative to cutting ivy geraniums.
- Economical to produce with a fast crop time and no need to pinch or apply PGRs.
- High tolerance to edema makes more salable plants and reduces shrink.
